

*Company Profile*

Fibre Optic Systems

## Fibre Optic Systems

FOS is a fibre optic manufacturer, distributor and solutions provider. Australian owned and operated for over 15 years with a passion and commitment to bringing the latest technology to the industry. Initially founded out of a desire to provide high volume, efficient and economical local production of all fibre optic assemblies, FOS has since grown to become an industry leading solutions provider. With expertise, excellence in manufacturing and commitment to innovation, FOS is well equipped to remain the 'Experts in Connectivity.'

## The FOS Difference

### Experienced Team

The highly skilled team at FOS prides itself in their knowledge of fibre optic technology. A growing number of experienced and qualified team members are equipped and ready to undertake any challenge. Our like-minded team operates with the shared vision of commitment to customer support, industry leading service, exceptional quality and value.

### Design Capabilities

At FOS we pride ourselves in our in-house design, engineering, rapid prototyping and customised manufacturing capabilities. We continually strive for innovation and expertise and we welcome opportunities to develop product to custom specifications; working closely with our clients to provide the top performing, high quality and economical solution.

### Modern Production Complex

At FOS we have invested significantly in our locally operated production facility. Our state of the art complex boasts cutting edge termination and test equipment that ensures we remain at the forefront of fibre assembly manufacture.

### Manufacturing Excellence

Our local production facility supports manufacture of a broad range of cable assemblies, patch leads and enclosures. Lean manufacturing process management and efficiency measures ensure economical production is maintained for both low and high volumes.

### Key Suppliers

With a deep local and international supplier network, at FOS we have a vast supply chain to ensure we can provide what our clients require. Some of our key partnerships include:

## Quality

FOS is committed to providing products of the highest quality. All manufacturing is performed to the most stringent standards and fully tested ensuring our products are suitable for purpose and of quality you can rely on.

In addition to our standard warranty, FOS provides a 15 year guarantee on workmanship for all patch leads and cable assemblies to ensure peace of mind.

## Service

At FOS, we believe in delivering the highest levels of service in the industry. Regardless of the size or scope of your project or requirement, we are committed to providing efficient and timely service and prompt delivery.

Our broad and ever increasing stock holding, coupled with our industry leading turnaround on manufactured product, equips us to meet any need.

## Value

With Fibre Optic Systems, you can be sure you are receiving the highest quality products and best customer service and support. Further coupled with our constantly improving techniques, processes and lean manufacturing methods, ensures we are providing cost effective and value rich products to our customers.

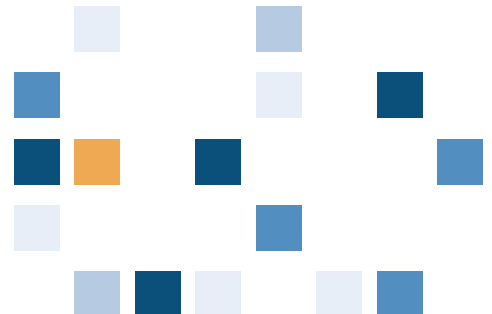

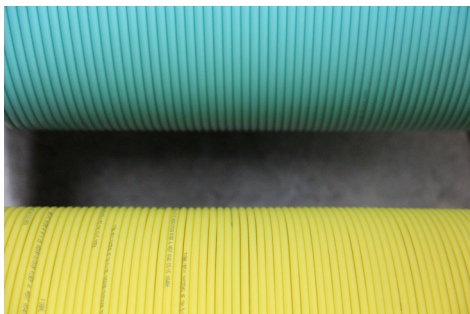

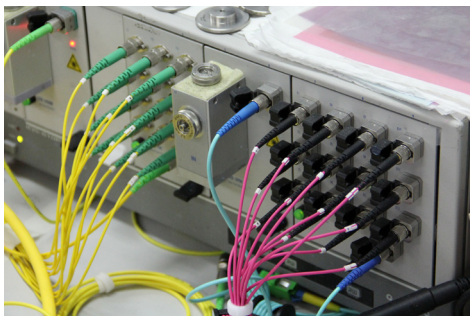

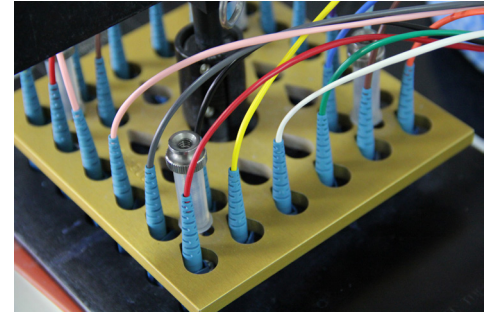

## Support

With our growing team of experienced customer support and technical staff, we at FOS are dedicated to ensuring our customers have the support network available to satisfy any need.

Our passion for remaining ahead of the curve in processes, product development and industry knowledge means we are well equipped to exceed client support expectations.
